GEL PAINTS & EMPASTAS

GEL PAINTS

Gel paint is a dense product with high viscosity and dense pigmentation designed to decorate the nail plate.

- Recommended to be used with the hard gel system.
- For use with gel polish, the plate must be very well strengthened.
- Polymerized in LED, LED / CCFL, UV and CCFL lamps - 2 minutes.

Classic Gel Paints Set (2.0)

10 pcs * 5ml

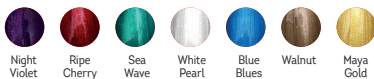

EMPASTAS

Empasta is perfect for design. It has a special thick consistency. An important feature of these gel paints is the absence of a sticky layer after polymerization. It does not require a top coat.

- Recommended to be used with the hard gel system.
- Polymerized in LED, LED / CCFL, UV and CCFL lamps - 2 minutes.

KERATOLYTIC

30ml | 100ml

Alkaline keratolytic

- Careful removal of rough skin;
- E-File does not heat up the foot thanks to instant action;
- Great for both classic and e-file pedicures. Considerably saves time.

100ml

Acid-based alkaline keratolytic

- Citric, tartaric, and lactic acids produce a gentle softening effect, efficiently removing dead skin cells;
- Lactic acid retains moisture in the epidermal layers, increasing elasticity, and smoothens the skin;
- Packaging with dispenser provides for economical consumption.

30ml | 100ml

Urea-based keratolytic

- Carbamide gently and effectively softens rough skin and keeps the feet moisturized and supple long after the procedure;
- Helps reduce dryness and hyperkeratosis, preventing sensitive skin from cracking in patients with diabetes.
